Firstline Sealer is One of Few to Protect Granite Countertops Against Oil AND Water

Austin—July 16, 2010--Once you finally get your dream granite kitchen countertops, you want them to look good forever! There are tons of sealers on the market, but many aren't VOC compliant, could be flammable, and can yellow over time. The best sealer is one that repels water and oil, not just water like most, and is eco-friendly. Artisan Stone Collection granite arrives to customers sealed with Firstline premium sealer, taking the guesswork out of initial care and ensuring the stone will look like new for as long as possible. Firstline penetrates even the most dense stone to ensure it is sealed completely. It is VOC compliant in all 50 states. To top it off, the Artisan Group backs its granite with a comprehensive lifetime warranty that includes workmanship.

Firstline Sealer is an exclusive, eco-friendly product designed specifically for the Artisan Stone Collection.

Artisan Group

Artisan Group™ is the premier network of stone fabricators in North America. Its extensive network allows the organization to offer the world's best granite from the best sources around the globe. Utilizing the most technically advanced, automated shops in the industry, highly skilled craftsmen ensure that each and every installation meets exacting standards. In fact, all Artisan Group members have either achieved Marble Institute of America Accreditation, or have begun the process, making it the first group of granite fabricators in the world to be working towards this distinction. From classic to exotic, Artisan Group offers the most extensive array of stone and wood choices in the industry, and is dedicated to the highest level of customer service.
